Carlos Garcia - Fleet Manager **CHALLENGES**

At Texas Historical Commission, managing a fleet of over 100 vehicles presents several challenges. These include consolidating and reviewing all associated data on a single platform, ensuring visibility, safety, compliance, optimal fleet utilization during working hours, cost reduction in insurance rates, fuel expenses, and addressing maintenance issues. Additionally, the focus is on automating the vehicle sharing and booking for the staff.

Texas Historical Commission researched several telematics

platforms before deciding on Can-Am Geotab Telematics and Fleetster ride sharing platform. Installation, implementation, and assistance to our departments has been a fantastic experience. The

invaluable data, alerts, reports, and ride sharing booking system

has taken all our fleets to a new level of efficiency
