THE BUSINESS

With instant fleet tracking and extensive analytic capabilities available at your fingertips, Can-Am can help you harness the data you already have to uncover efficiency gaps and problem areas, maximizing the power of your entire fleet.

"Unfortunately, one week after Can-Am came out and installed our system, one of our company trucks was involved in a serious accident. FORTUNATELY, the system performed as promised, providing report & photographic evidence for insurance and law enforcement that our driver was entirely not at fault , thank you Can-Am! "

Christian Gonzalez,
Operations Manager

CHALLENGES

The challenge for Westhill Paving: Driver safety, lack of visibility of its fleet during working hours, employee compliance of driving vehicles after hours; resulting in higher insurance rates (due to the possibility of many unknowns).

SOLUTIONS

Westhill Paving chose Can-Am Telematics and AI connected dash cam because it provided a simple solution to providing accountability and reports with the opportunity to grow with business. Can-Am set up Westhill Paving with asset reports, cameras and other integrations to allow the the company to function more efficiently. In turn, saving the company money while allowing it to better serve its customers.
